Remarks

Inspection based on a complaint...There was a total of 96 adult dogs and 49 puppies on the premises at the time of inspection...Inspection done only for kennel conditions and dogs health, safety and welfare.
 21.21a-Door openings for dogs had chewed wood with sharp edges that could pose a threat of injury to dogs.
 21.21b-Any exposed wood needs to be resealed or covered.
 21.21c-Drainage throughout entire kennel needs to be corrected. All dirt must be covered with stones if dog comes into contact with it. Fix any areas where pooling of water occurs when it rains.
 21.24a-Area where dogs are being housed in calf hutches is not adequate to preserve dogs body heat. Hutches must have a solid bottom.
 21.24d-Wire coating that is coming off the floors must be repaired or replaced.
 21.26-New dog pens where the only opening to outside is through the floors is inadequate ventilation.
 21.28c-Food and water receptacles that are chewed must be replaced and free of caked on food.
 21.29b-Needs to clean inside of dog pens better to prevent build up of feces, hair, and debris.
 21.29c-There was a lot of hair build up throughout kennel underneath pens and inside dog boxes.
 Inspection done with: Megan Caskey, Drew Delenick, Rickee Miller, Sue West, and 2 state veterinarians.
